

UVUE

YOUR SILENT WITNESS

UVUE DASH CAM RANGE

Car accidents, road rage and driver impatience are a common occurrence on the roads today making it harder to stay safe!

A UVUE Dash Cam provides a safety net to help prove your innocence in the event of an accident STOPPING the 'He said, she said' predicament dead in its tracks.

No you didn't pull out in front of someone....they made an illegal move!

DON'T RISK IT, PROTECT YOURSELF TODAY!

Compact and packed with all the latest tech in dash-cams, UVUE cameras offer a level of performance, clarity and support that cheap cameras simply cannot match.

U4

Want the smallest "stealth" tech in dashcams? The U4 features Sony Full high Definition mini cams front and rear making for an unobstructed forward view and discreet installation.

U5

The U5 is a traditional cylinder style dashcam. Powerful and easy to use it features Full High Definition recording on both the front and rear. The U5 works through a simple smart-phone app for feature selection and video backup.

U9

Not "tech savvy"? (you're not alone!) The U9 is based around a familiar easy to use touch screen. This allows for simple feature selection and video playback. The U9 also has WiFi for smart phone connection as well!

WE ALL DESERVE THIS PROTECTION!

UVUE DASH CAMS

FEATURES	BENEFITS
WIFI APP	All UVUE dashcams feature an easy to use smart phone app. WiFi allows you to change settings and copy videos to your smart phone
ENHANCED LOW LIGHT PERFORMANCE	Enhanced low light performance Low light cameras for enhanced night performance
PARKING MODE	UVUE dashcams can record for short periods whilst vehicle is parked and ignition is off, like at the supermarket!
FRONT AND REAR PROTECTION	Front and rear protection All UVUE dashcams feature wide angle front and rear cameras to capture more
LOW BATTERY PROTECTION	Low Battery Protection In "Parking Mode" Low Battery Protection safely puts the camera to sleep long before the vehicles battery is flat
GPS	GPS allows vehicle speed and location logging with Google maps
G-SENSOR	(Gravity Sensor) Impact sensor to safely lock files in a collision
LOOP RECORDING	Loop Recording Seamless loop recording constantly replaces old video with new
VOICE RECORD	Sound recording can be turned off and on
HIGH TEMP PROTECTION	Turns the camera off before over heating can occur
NO LITHIUM	Lithium batteries found in cheap cameras are unstable in hot environments, we don't use them!
